

Written by Jonathan Corrales Jimenez
Work Plan Day 2
Due date: 29/12/2021 before 1:00 pm

Objectives:

- To add missing tables following Work Plan Day 1.
- To test that tables can be created.

Instructions

- 1) Create the following missing tables and their dictionaries
Upload them to github.
- 2) **Check for correct implementation of primary keys.**
Edit your document on github.
If you have changed a name on your github document
please change it on the logic model
- 3) Add NOT NULL constraints where it applies
- 4) Test that the tables you have made can be created
Once you have tested the creation, add a comment on your github
document like "Tested for creation"
